

As a second-generation Mexican-American woman, and the first in my family to graduate from a four-year college, I understand that investing in our youth and community is essential.

My husband and I want our young daughter to grow up in a sustainable, safe, and family-friendly Capitola. Because of that, I support keeping Capitola's intimate, small-town feel and coastal village charm. I'm confident that by bringing many voices to the table, we can meet our very significant long-term structural budget challenges without compromising what makes Capitola special.

In addition to being the incumbent, I am also the Executive Director of for Your Future Is Our Business, a non-profit whose mission is to connect students to work-based learning opportunities. I also serve as the Co-Chair for the Children's Network, LAFCO, the Monterey Bay National Marine Sanctuary Foundation, Central Coast Community Energy, and the Vice President for the Monterey Bay Division, League of California Cities.

I am eager to continue my work as Councilmember supporting our remarkable community and know that together, we can:

Support Economic Vitality

Enhance Public Safety

Preserve the Beach and Open Spaces

I would be honored to have your vote to serve Capitola again.
