**Temporary Closure of Waters off of Capitola Beach
Lifted**

CAPITOLA —

A temporary closure of the waters off of Capitola Beach was initiated by Central Fire Protection District after receiving reports of a foreign substance in the water. Santa Cruz County Environmental Health officers have conducted an analysis of the material and determined that it no hazard exists and all restrictions have been removed.

The material in question, a white sticky material, has not been identified, but is believed to be a natural fatty substance.

Direct questions to Capitola Police Department at 471-1141
