what is nixle?

Founded in 2007, Nixle is a communication system that connects residents with the agencies that serve and protect them. Residents can use Nixle to recieve information ranging from critical alerts to community news. Additionally, residents can choose how they receive this information – by SMS (text message), email, over the Web or by mobile application.

how does it work?

Message Publishing

Your police department and other local municipal agencies use Nixle as a publishing system. Messages are created and assigned a priority level ensuring important information reaches you in a timely manner.

Location Targeting

Messages are targeted to specific geographic regions. If your address falls within this geographic area, you'll receive the message. Add as many locations as you'd like from across the country.

Receiving Messages

Enter your mobile phone number to receive messages by SMS (text message). You can also choose to receive emails, or simply view the messages by logging into your Nixle account. You decide!
