Capitola Avenue Sidewalk Improvement Project
Plan Holders List as of 01/13/21

The Capitola Avenue Sidewalk Improvement Project is a transportation improvement project that requires bids from contractors. The project involves the construction of new sidewalks along Capitola Avenue, which is a major road in the Capitola area. The project is being managed by the city of Capitola, and interested contractors are invited to submit their bids.

The project specifications include the construction of new sidewalks along Capitola Avenue, with a total length of approximately 2 miles. The project is expected to take place over a period of six months, starting in January 2021.

Contractors interested in bidding on the project can obtain the project specifications at the Capitola City Hall or on the city's website. The project specifications include detailed information about the project scope, requirements, and specifications.

In addition, interested contractors are encouraged to attend a pre-bid meeting to learn more about the project and ask any questions they may have. The pre-bid meeting will be held on January 13, 2021, at 10:00 am at the Capitola City Hall.

Contractors who are interested in bidding on the project are required to submit their bids by January 13, 2021, at 2:00 pm. The bids will be evaluated based on the contractors' experience, qualifications, and the cost of the proposed project.

In conclusion, the Capitola Avenue Sidewalk Improvement Project is a significant transportation improvement project that will enhance the safety and accessibility of Capitola Avenue. Interested contractors are encouraged to submit their bids by the deadline and attend the pre-bid meeting to learn more about the project.
