

Volunteers Needed for First Flush Monitoring

Classroom Training

Monday, September 8, 2014 at 6:00 p.m. – 8:00 p.m.
City of Capitola Council Chambers
420 Capitola Avenue, Capitola

Dry Run

Saturday, September 13, 2014 at 9:00 a.m. – 12 noon
Field Sites

Participate with the Coastal Watershed Council in the on-going community effort to monitor the water flowing off our streets into the Monterey Bay National Marine Sanctuary during the first significant rain of the wet season. Volunteers monitor specific storm drains during the first initial runoff. Volunteers will be trained to collect water samples that are sent to a professional lab, and to monitor water temperature, conductivity, ph and transparency at the storm drains. *Please plan to attend both trainings.*

For more information and to sign up for First Flush contact the Coastal Watershed Council at 831.464.9200, www.coastal-watershed.org, or email: djchirco@coastal-watershed.org
